

## PROFESSIONAL SUMMARY

Frontend Engineer with 5+ years of experience driving product excellence and team growth in fast-paced environments. Specialized in building and scaling modern web applications using React, Angular, TypeScript, and cutting-edge technologies. Recognized for leading cross-functional teams, mentoring developers to promotion, and delivering solutions that improve user experience and business outcomes. Committed to code quality, performance, and best practices that reduce bugs, speed up delivery, and maximize impact.

## PROFESSIONAL EXPERIENCE

### Senior Frontend Developer

#### CapitalSage Holdings

August 2025 – Present | Lagos Island, Lagos State, Nigeria

- Spearheaded the modernization and migration of a legacy monolithic application to a React and TypeScript architecture, resulting in a 40% reduction in page load time and a 60% improvement in Lighthouse performance scores
- Architected and built a reusable design system and components from the ground up, standardizing UI across 5+ product teams and decreasing frontend development time for new features by an estimated 30%
- Led the development of a high-traffic, real-time customer analytics dashboard, integrating WebSocket feeds and D3.js for data visualization, successfully supporting daily active users
- Established frontend engineering best practices, code review standards, and a scalable project structure, significantly improving code maintainability and cross-team collaboration

### Frontend Developer

#### A Venture Studio (AVS) | Contract

October 2024 – July 2025 | London Area, United Kingdom | Remote

- Build, maintain, and optimize user-facing features with high-quality code
- Conduct code reviews to ensure adherence to best practices and maintain code quality
- Implement and enforce frontend development standards and guidelines
- Participate in discussions regarding project architecture and technology stacks
- Coordinate with product managers to understand and implement project requirements

### Senior Frontend Developer

#### NLPC Pension | Contract

May 2024 – December 2024 | Lagos, Lagos State, Nigeria | Remote

- Build, maintain, and optimize user-facing features with high-quality code
- Conduct code reviews to ensure adherence to best practices and maintain code quality
- Implement and enforce frontend development standards and guidelines
- Guide junior developers by providing technical mentorship and feedback
- Participate in discussions regarding project architecture and technology stacks
- Coordinate with product managers to understand and implement project requirements

### Frontend (Angular) Developer

#### TradeBuza

December 2021 – May 2024 | Lagos State, Nigeria

# Elijah Obominuru

SENIOR FRONTEND ENGINEER

## TECHNICAL SKILLS

### Expert

JavaScript, TypeScript, React, Next.js, Angular, Redux, Tailwind CSS

### Proficient

Node.js, Ruby on Rails, PostgreSQL, Tanstack Query, Jest, Testing Library (RTL)

### Experience With

Webpack, Vite, Framer Motion, Chart.js, GraphQL, Design Systems, Web Vitals

### Tools & Practices

Git, GitHub, CI/CD, TDD, Agile/S

## CORE COMPETENCIES

Technical Leadership

Code Review & Quality

Team Mentorship

Agile Development

Cross-functional Collaboration

- Developed dynamic, responsive single-page applications (SPAs) using Angular, TypeScript, and RxJS, adopting a mobile-first approach that achieved 95%+ user satisfaction scores.
- Boosted frontend performance by 40% by implementing core Angular optimization techniques such as lazy loading modules, code splitting, and OnPush change detection.
- Engineered robust data flow and state management by collaborating with backend teams to integrate RESTful APIs using Angular services and HttpClient.
- Partnered with product management to translate business objectives into technical roadmaps, providing critical input on Angular-centric architecture and feature feasibility.

## Frontend Instructor (ReactJS, NextJS)

### DelonJobs | Contract

January 2024 – March 2024 | Lagos, Lagos State, Nigeria | Hybrid

- Designed and delivered comprehensive, industry-aligned curriculum covering React and Next.js fundamentals through advanced concepts
- Conducted immersive training sessions combining theoretical knowledge with real-world project experience, preparing students for professional development roles
- Structured detailed learning paths with granular daily objectives, ensuring systematic skill progression and measurable learning outcomes
- Mentored students through hands-on projects, code reviews, and best practice implementation, significantly accelerating their professional readiness

## Frontend Developer (React)

### UCARD Innovations Inc.

March 2022 – March 2023 | Lagos, Lagos State, Nigeria | Remote

- Transformed merchant operations by developing intuitive admin portal that streamlined management processes, increasing operational efficiency by 60%
- Integrated seamless bill payment system enabling businesses to access exclusive discounts, driving platform adoption
- Built comprehensive agency banking ecosystem infrastructure supporting agents and financial institutions with minimal capital requirements

## Frontend Developer (React)

### DOSH Services | Contract

February 2020 – December 2022 | Lagos, Nigeria

- Led end-to-end development of innovative dry cleaning mobile application featuring complete user journey from registration through payment
- Delivered pixel-perfect, responsive web interfaces that established company's digital presence and customer engagement foundation

## EDUCATION & CERTIFICATION

### Bachelor of Science, Medical Biochemistry and Genetics

Delta State University | Graduated April 2014

Full Stack Web Development Program - Microverse | Completed 2020
